PERSONAL PROFILE

I consider myself a Software Developer in-training. I have a varied, diverse skillset that encompasses staff management, customer service, technical skills, Medical Device production and Retail Sales. I have often been commended by my peers on my attention to detail in my work and determination to get the job done. I like to work efficiently, and as part of a team.

I have strong technical skills as well as excellent interpersonal skills, enabling me to interact with a wide range of employers and colleagues. I am eager to pursue a career change to Software Development and further develop my skillset in this Industry.

INTERESTS

- New Technology: Keen interest in software and hardware developments – my most essential apps include Adobe Premier Pro and Photoshop, as I like to do some video editing in my spare time.
- Reading: I am a lifelong reader, with a specific interest in Biographies, Fiction and New Technology.
- Motorcycling: I often attend group ride-outs where our local group will assist in fundraising for local and national charities throughout the year. I have a keen interest in the technology of Racing.
- Travelling: I have spent 3 months in Chicago, IL where I worked as a Chef in a busy restaurant while exploring and experiencing the US on a J1 visa while attending University.

- I spent almost 2 years in Australia from 2015 to 2017, working on various fruit and textile-farms all over the continent. I travelled and stayed in a self-made campervan as I drove 30,000km over 6 months. I scuba-dived around the great barrier reef while in Cairns.
